

BLEND BLACK UN 0651 MASTERBATCH

Designed For All Polymers

| Exceeding Your Expectations | www.blendcolours.com |

- **Blend Black UN 0651**, is a jet black MB specially designed for high gloss in thermoplastic applications
- Compatibility with PS, ABS, SAN, PE, PP, PBT & Nylon
- It performs better against other Universal Black's available in the market
- Provides 10% higher strength against existing products
- Suitable for commodity & automotive plastics

OVERVIEW

Blend Black UN 0651 MB provides you:

- High jetness value
- Good gloss, blackness & strong coloring ability
- High output & reduced production cost to low dosage
- Uniform particle size thus better mixing
- FDA approved

OTHER DETAILS

Application

- Compounding
- Extrusion
- Injection Moulding

Technical Details

- Density: 1.18-1.22
- Dosage: 1-2%
- Carbon Content: 50±1%

Performances

- Batch to batch consistency
- Enhanced end use product performance
