

ANTI-PEST UV MASTERBATCH

Designed For Pesticides resistance

| Exceeding Your Expectations | www.blendcolours.com |

- **Blend Anti-Pest UV MB**, protects the mulch film from early breakage & wear out against pesticides spraying for a long crop cycle
- This product is a synergistic combination of light stabilizer & UV absorber additives
- Our product is highly compatible with polymer resin with proper distribution throughout the surface of the film
- It also facilitates mechanical property retention of the film resulting in more shelf life

OVERVIEW

Blend Anti-Pest UV MB provides you:

- Good sulphur resistance
- IR barrier for thermic greenhouse film
- Excellent protection against varying climatic conditions
- Protection from UV rays & pesticides in agriculture film
- Increased mechanical strength & elongation

OTHER DETAILS
