

## BLEND ANTI-SPLIT MASTERBATCH

### *Designed For PET Strapping*

- Blend Anti-split MB removes the longitudinal splitting problem & essential for maximum coloring strength & performance
- Improves impact strength
- Prevents failure of the PET strap
- Reinforce tensile strength and elongation
- Provides superior flexibility

#### Application

- PET Strapping

#### Technical Details

- Dosage: 2-4%
- Colour: Natural To Green
- MFI: 15-20g/10min

#### Performances

- Excellent thermal stability which makes it compatible with the usual processing temperatures of polyesters (> 250°C)
