

FROST EFFECT MASTERBATCH

Designed For Better Aesthetics

| Exceeding Your Expectations | www.blendcolours.com |

- **Blend Frost Effect MB**, is designed for PET & another clear resin (like PC, PMMA & PS) to induce a haze effect on the moulded articles
- It has been developed to address the rising demand of matt effect in FMCG products
- It creates soft & homogenous diffusion phenomena across the surface
- It provides outstanding translucency without altering the spectrum of transmitted light

OVERVIEW

Blend Frost Effect MB provides you:

- A soft, cool & icy look
- Better slip-resistance
- Reduce gloss & improved matt effect
- Anti-blocking properties
- FDA approved
