

VCI MASTERBATCH

Designed For Rust Protection

| Exceeding Your Expectations | www.blendcolours.com |

- **Blend VCI MB** additive is specially formulated for corrosion protection for both ferrous & non-ferrous metals
- Excellent compatibility with polymers resin (PP/ LDPE/ LLDPE/ HDPE)
- These produce a range of anti-corrosion packaging system like Blown Film/ Moulding/ Stretch film
- To protect the packed article from corrosion, this MB releases anti-corrosion vapour, which forms a mono-ionic layer & provides protection to the packed parts

OVERVIEW

Blend VCI MB provides you:

- Tear-resistant
- Better sealing & printing capabilities
- Enhances the durability & life of a packed component
- Prevents surface corrosion of packed components
- Film can withstand bad effects of weather

OTHER DETAILS

Application

- Automotive
- Heavy Equipment
- Export Packaging

Technical Details

- Active Content: 20±1%
- Appearance: White
- Dosage: 1-3%
- Shelf Life: 2 Yr

Performances

- Keeps dust & moisture out
- Highly stretchable
